HYUNDAI HY3000Ci 3kW CONVERTER GENERATOR

The HY3000Ci is a heavy duty converter generator from Hyundai. Powered by the IC210 212cc single cylinder OHV 4-stroke air cooled low maintenance petrol engine. The HY3000Ci converter design is so light and compact compared to conventional generators, which are 50% heavier and bulkier.

Specification

Model	HY3000Ci
Engine type	4-stroke OHV forced-air-cooling
Frequency Hz	50
Voltage V	230
Current A	13
Max power kW	3.0
Displacement cc	212
Max speed	3600rpm
Start method	Recoil
Noise level dB(A)	72 @ 7m*
Dimensions LxWxH	450 x 430 x 485mm
Engine oil	SAE10W30 or 15W40
Net weight kg	26.5
